Fee Examples:

Example for Investment Products

If you receive advice regarding an investment of \$100,000; the SoA fee could be \$2,500.00, of which \$175.00 is retained by Lifespan and \$2,325.00 is paid to Finassure Pty Ltd. If you invest \$100,000 the implementation fee will be \$1,200.00, of which \$84.00 is retained by Lifespan and 1,116.00 is paid to Finassure Pty. If you maintained the investment and assuming the balance of the investment remains at \$100,000.00, the ongoing advice fee will be \$2,220.00 per annum, of which \$155.40 is retained by Lifespan and \$2,064.60 is paid to Finassure Pty Ltd.

Example for Risk Products

If you receive advice regarding insurance, the SoA fee could be \$2,500 of which \$175.00 is retained by Lifespan and \$2,325.00 is paid to Finassure Pty Ltd. However, if the policy is cancelled in the first two years ('responsibility period' *) you will be liable for the portion of the commission clawed back by the insurer from Finassure Pty Ltd.

If you take out a life insurance policy with an annual premium of \$1,500.00, assuming the highest commission for the Upfront Option is selected at 66%, the upfront payment to Lifespan would be \$990.00, of which \$69.30 is retained by Lifespan and \$920.70 is paid to Finassure Pty Ltd. The maximum ongoing commission

for the Upfront Option is currently 33% per annum which could result in a payment of \$495.00 per annum for as long as the policy remains in force, of which \$34.65 is retained by Lifespan and \$460.35 is paid to Finassure Pty Ltd. Where a level commission option is selected, it could be as much as 33%, or \$495.00, of which \$34.65 is retained by Lifespan, \$460.35 is paid to Finassure Pty Ltd.

* This commission has what is called a 'responsibility period' imposed by the risk product issuer. This means that if the policy is cancelled within the first 1-2 years of inception commission is returned to the product issuer by Lifespan.
